Hi Scott,

Thank you for this info and I appreciate your patience as I was in an all-day conference yesterday.

Over the weekend we had our contractor install a new chain gate and signage at our construction road entrance west of Sandwich Notch Road (photos attached). Signage at the other locations were checked and confirmed to be intact in ROW and at the aforementioned access points. All other gates continue to be secured and pictures sent when crews are using them or are in the area.

Hopefully these measures deter any unauthorized use in this area. We will continue to monitor for activity and respond accordingly.

If you have any questions or concerns please let me know.

Thanks,
Ashley

Thanks Jasmin,

That sounds good. I'd maybe just throw up some authorized vehicles only signs on anywhere that access can be made off Sandwich Notch, Kiah Pond, and Beebe River Roads. Sandwich Notch is receiving quite a bit of attention on social media and people were showing their trips up the powerline roads. Eversource should probably have a copy of our motor vehicle use map, that way they can see where their administrative access differs from public motor vehicle access.

Hi Ashley,

Sorry, I forgot to add Scott's email! I'll let him chime in if he has additional recommendations from his experience.

Thanks for following up.

Hey Jasmin,

I confirmed with the crews and we have “project in progress keep away from crews” signage in this area that is still up and in good condition but will add more.

We’re placing concrete blocks and a chain on the entrance of our construction road on the west side of Sandwich Notch Road to prevent the public from using it since this is the only non-gated entrance the ROW crosses within WMNF. If you think it is helpful for WMNF to use our project website on any of theirs to note construction near recreation areas, the link can be found, here:

<https://www.eversource.com/content/residential/about/transmission-distribution/projects/new-hampshire-projects/beebe-river-to-white-lake-line-rebuild-project>

If you or the LEO have any additional recommendations we are open to suggestions!

Thanks,
Ashley

Hey Jasmin,

I didn’t see Scott on the email but will let the team know these are the areas of concern and see what additional precautions we could potentially take to mitigate issues.

Thanks,
Ashley

Hi Ashley,

Our LEO, Scott Howlett, specified that the issues are the created side roads that are off of Sandwich Notch Rd – Beebe River Rd, Kiah Pond Rd, and Lower Hall Pond Rd that are wide open. I copied Scott here incase he has any more details to offer.

Thanks,

Hey Jasmin,

Time is flying for sure! I'm doing well, thanks, and hope you are too.

Can we please get additional details on this issue to help us address it accordingly? If it's easier to get in touch with the Law Enforcement Officer directly please let us know and we're happy to coordinate.

Crews have been diligent in shutting/locking the gates since the last incident (5/13). I've been getting email photo confirmations that the gates have been secured so we're wondering where the point of entry is that is referenced. Additionally, if you know where this was posted on social media the link to the post could be helpful information as well.

The crews haven't seen any unauthorized vehicle use but will definitely keep an eye out and take measures to prevent it to the greatest extent possible. We have our regular Project meeting today so we'll talk in detail about this with the contractor.

Thanks,
Ashley

Hi Ashley,

Feels like it's been awhile – hope you and the project are well. I just received word from our Law Enforcement Officer that there are all sorts of unauthorized vehicles on the access roads/B112 corridor around Sandwich Notch Road. There's even social media posts telling people to come drive them. Please secure or post these roads.

Thanks,
