

CONSTRUCTION MONITORING REPORT

GEOTECHNICAL | ENVIRONMENTAL | ECOLOGICAL | WATER | CONSTRUCTION MANAGEMENT

Known for excellence. Built on trust.

TYPE OF INSPECTION:

☐ Weekly ☐ Storm Event⁺ ☐ Reduced Frequency⁺⁺

☒ Other: **Monthly**

Date: **2/17/2025** Time: **11:30 am**

⁺Was this inspection triggered by a 0.25" storm event? ☐ Yes ☒ No

If yes, how did you determine whether a 0.25" storm event has occurred? ☐ Rain Gauge ☐ Weather Station

☒ Other If other, please describe: **National Weather Service**

+Storm event info (approx.):

Start date/time: **1/29/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **1.6**

Start date/time: **1/30/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **1.5**

Start date/time: **2/1/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **4.5**

Start date/time: **2/3/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **3.2**

Start date/time: **2/7/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **4.0**

Start date/time: **2/9/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **9.4**

Start date/time: **2/10/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **1.1**

Start date/time: **2/13/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **1.5**

Start date/time: **2/14/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **1.7**

Start date/time: **2/15/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **2.2**

Start date/time: **2/16/25** Amount of rainfall (inches): **0.0** Amount of snowfall (inches): **6.0**

⁺⁺Reason for Reduced Frequency

(i.e., *Monthly due to frozen conditions*):

Inspector name(s), title(s) and qualifications:

Noah Longval (Field Scientist)

Others present/affiliation(s):

N/A

Weather conditions (since last inspection):

Cloudy days with temperatures ranging from below zero to the mid-30's. Snow events occurred throughout the end of January into February.

Weather conditions (time of inspection & future outlook):

Sunny during the inspection with temperatures in the single digits. The forecast calls for partly sunny days with temperatures ranging from the single digits to the mid-30's. Snow events are forecasted for 2/22, 2/24, 2/25, 2/27, and 2/28.

CONSTRUCTION SITE SEQUENCING AND DISTURBANCE

Disturbed area and ongoing work (acreage & description): Approximately 0.0 acres of active disturbance. GZA understands that restoration is complete.

Proceeding per approved plan? ☒ YES ☐ NO If not, note area and explain:

Operating within phasing limitations? ☒ YES ☐ NO If not, note area and explain:

CURRENT WORK ACTIVITIES / NOTES

GZA completed an inspection of current site conditions on **2/17/2025**. The Site is currently snow covered with approximately 37 inches of snow and has frozen conditions.

Erosion and sediment control items and observations:

GZA visited the following locations. All locations were observed under frozen conditions with snow cover. There is currently no access to these locations, as no snow removal has occurred on access roads.

- *NH Route 175, Campton*
 - The access roads and work pads from Structures 1 to 3.
- *Page Road, Campton*
 - The access roads and work pads from Structures 7 to 9.
- *Mount Israel Road, Sandwich*
 - The access roads and work pads from Structures 119 to 123.
- *Whiteface Road, Sandwich*
 - The access roads and work pads from Structures 157 to 158.
- *Durrell Road, Tamworth*
 - The access roads and work pads from Structures 226 to 228.

Future Work:

- GZA understands that restoration is complete. Per CGP 4.4.1a, GZA will conduct monthly inspections until final stabilization criteria are met.

Looking northwest at the access road to Structure 120 off Mount Israel Road, Sandwich.

PHOTOGRAPHS

Looking east at Structure 158 off Whiteface Road, Sandwich.

Looking west at the water bar in place along the access road near Structure 227 off Durrell Road, Tamworth.

STORMWATER DISCHARGE

Stormwater discharge from the site at the time of inspection? ☐ YES ☒ NO
If YES, Turbidity visually observed? ☐ YES ☐ NO

If YES, Stormwater discharge consistent with water quality standards? ☐ YES ☐ NO ☒ N/A

If YES, check appropriate location(s) below, and describe discharge:

☐ Location:

☐ Pond location:

☐ Adjacent surface water or wetland:

Description:

DURING CONSTRUCTION: TEMPORARY EROSION AND SEDIMENTATION CONTROLS (TESC)

Installed and functioning per the SWPPP? ☒ YES ☐ NO ☐ N/A

If not, explain necessary repairs or other maintenance to be taken for each of the following categories. Detail what needs to be done, in what location, and what has been corrected since the last monitoring inspection.

☐ Erosion prevention and stabilization
(e.g., straw wattle):

☐ Runoff control (e.g., water bars):

☐ Sediment control (e.g., straw wattle,
silt sock):

Are any corrective actions required?* ☐ YES ☒ NO If so, please describe:

** Note: The permit differentiates between conditions requiring repairs and maintenance, and those requiring corrective action. Corrective actions are triggered only for specific, more serious conditions and require a corrective action form be filled out. Please refer to Part 5 of the CGP for additional information.*

RESTORATION: PERMANENT EROSION AND SEDIMENTATION CONTROLS (PESC)

Disturbed areas must have a uniform perennial vegetative cover with 85% density, or equivalent physical stabilization, to be considered permanently stabilized (per the SWPPP).

Installed and functioning per the SWPPP? ☐ YES ☐ NO ☒ N/A

If not, explain what was not performed correctly (construction/stabilization) for each of the following categories. Detail what/where needs to be corrected, and what has been corrected since the last monitoring inspection.

Runoff Control, Erosion Prevention and Soil
Stabilization, and Sediment Control, Other:

OTHER COMMENTS AND OBSERVATIONS

- No new work has been completed since 11/26/24.
- GZA understands that restoration is complete. Per CGP 4.4.1a, GZA will conduct monthly inspections until final stabilization criteria are met.

CERTIFICATION:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information contained therein. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information contained is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

This form is completed and signed in accordance with the Signatory Requirements specified in Appendix G.11 of the NPDES CGP for the project site and NOI identified above.
