Subject: FW: Rail Trail, Hinsdale NH

Shawn,

I believe this falls under your jurisdiction as District 3 Supervisor for the Department of Natural & Cultural Resources Bureau of Trails as your office manages this section of trail in Hinsdale. As such, I'm passing it along to you and letting DOT District 4 and Railroad Planner Lou Barker know it was referred to you. Please contact NHDOT's Lou Barker if you have any questions relative to this.

Thank you,
NHDOT Rail & Transit

Subject: Rail Trail, Hinsdale NH

Good Morning,

DOT Maintenance District 4 in Swanzey took a call from Citizen Brian Walker, [REDACTED], [REDACTED], Route 63, Hinsdale. He stated that part of the top of a locust tree had broken off during the wind & rain storm this week. It is now hung up across the rail trail in the vicinity of his property. He stated that ATV's can currently get under it, but is concerned if it comes down more, that it may create a hazard.

Thank you,
Jennie L. Hill
