**Subject:** RE: Request for Information Concerning Abandoned Railroad Rights of Way in Colebrook

Lou will get in touch with Mr. Harris, who I believe we have discussed this with before. We also recently received a letter from the Town of Colebrook asking for the same consideration so we need to meet internally with Patrick and then discuss with the NHDNCR Trails Bureau.

Shelley,  
Could you or Lou reach out to Mr. Harris and explain the disposition of the section of RR corridor that he references below.

Thanks,  
Victoria

**Subject:** Request for Information Concerning Abandoned Railroad Rights of Way in Colebrook

Good Morning Commissioner.  
I have been scrolling through the NHDOT staff listings. I can not find an individual that is responsible for railroad rights of way both active and abandoned. I am trying to get in touch with the office or section that deals with abandoned railroad rights of way.

We are dealing with a real influx of ATV traffic on our roads up here and are working to try to find ways of providing off trails for this groups use. There is an abandoned railroad right of way going south from Colebrook into Columba that if dedeed to this purpose would potentially take a real load off neighborhoods in our communities.

Any help with this request is greatly appreciated. Thank you.

**Carpe Diem**

**Richard Harris (Dick)**
