**NOTICE OF ACCEPTANCE OF PERMIT APPLICATION
LAND RESOURCES MANAGEMENT
ALTERATION OF TERRAIN BUREAU**

February 1, 2023

CONCORD MUNICIPAL CLERK
41 GREEN ST
CONCORD NH 03301

**Re: Alteration of Terrain (AoT) Bureau Permit Application (RSA 485-A:17); NHDES File Number: 230201-026
Project Name: C189-M108-H137-G146 Structure Replacement Project
Subject Property: Tax Map# various, Lot# various**

Dear Sir or Madam:

Pursuant to RSA 541-A:39, please be advised that the New Hampshire Department of Environmental Services (NHDES) AoT Bureau accepted an application on February 1, 2023 for the permit program and subject property referenced above. The application requests a permit to disturb approximately 1,000,000.00 square feet of earth at the subject property.

Pursuant to Env-Wq 1503.05 (f), the applicant is required to provide a copy of the application and plans to the municipality. If you have not received the required information, please contact the agent: **STANTEC CONSULTING SERVICES C/O TOM TETREAU, 30 PARK DR, TOPSHAM, ME 03086.**

If you wish to comment on the application, please submit your comments by **March 13, 2023**. All comments should reference the NHDES file number, and mailed to the following address: **NHDES ALTERATION OF TERRAIN BUREAU, PO BOX 95, CONCORD NH 03302-0095.**

Please provide a copy of this notice to all interested departments, boards and commissions. Also note that under current state law and regulations, NHDES is not authorized to consider local zoning and regulatory issues pertaining to a project; these must be addressed at the local level.

If you have any questions, please contact the NHDES Alteration of Terrain Bureau at (603) 271-3568.

Sincerely,

Alteration of Terrain Bureau

P.O. Box 95
Concord, NH 03302

Reference: Alteration of Terrain Permit Application, C189, M108, H137, G146 Structure Replacement Project, Concord, Pembroke, Bow, New Hampshire

Dear Mr. Mauck,

On behalf of the Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource), Stantec Consulting Services Inc. is submitting this Alteration of Terrain (AoT) permit application for the proposed C189, M108, H137, and G146 Structure Replacement Project (CHMG; Project) in accordance with Terrain Alteration Law (RSA 485-A:17), New Hampshire Department of Environmental Services (NHDES) Administrative Rules (Env-Wq 1500 Alteration of Terrain) and discussions between the NHDES AoT Bureau and Eversource.

The proposed project includes replacement of 135 existing utility structures within the existing CHMG right-of-way, which runs approximately 12.5 miles between Concord and Bow, New Hampshire. The CHMG project is co-located in the same right-of-way as the P145 Rebuild Project (AoT-2205) that is currently under construction. Areas of upland disturbance associated with the project (see areas in red in Figure 4 of the included application) are subject to AoT permitting. Replacement of the existing utility structures is necessary to maintain the safety and reliability of the system. To conduct the structure replacement work more efficiently and safely, as well as allow for future routine maintenance of the existing lines, work pad grading and access road improvements are proposed as part of this project.

The proposed project will require disturbance subject to AoT permitting through the NHDES as a result of upland disturbances exceeding 100,000 square feet of contiguous disturbed area. The application fee of \$14,375 is based on the amount of total ground disturbance, minus wetland matting (1,000,000 square feet), and the latest NHDES fee schedule.

Included with this permit application is the application fee check, a completed AoT Permit Application Form, a detailed project description and narrative, required plans and figures, additional required materials, Natural Heritage Bureau DataCheck Results Letters, and a Wildlife Protection Plan describing best management practice for avoiding and minimizing impacts to rare species. The Wildlife Protection Plan was sent to the New Hampshire Fish and Game Department (NHFG) on January 13, 2023, to initiate consultation on rare species for the Project. The Wildlife Protection plan for the CHMG utilizes the same best management practices and avoidance measures agreed upon with NHFG for the co-located P145 Rebuild Project. Any additional correspondence with NHFG and subsequent edits to the Wildlife Protection

Reference: Alteration of Terrain Permit Application, C189, M108, H137, G146 Structure Replacement Project, Concord, Pembroke, Bow, New Hampshire

Plan will be provided to NHDES. Waiver requests for the preparation of a stormwater drainage report, drainage area plans and hydrologic soil group plans (Env-Wq 1509.04), and notification of project deviations (Env-Wq 1503.21) are included in the application, as discussed with NHDES during a pre-application meeting on February 8, 2022, for the P145 Rebuild Project and subsequent informal emails and conversations between NHDES, Eversource, and Stantec. The proposed project is scheduled to begin construction as soon as necessary permitting is in place to allow for efficiencies with the construction of the P145 Rebuild Project that is already underway and will continue through fall 2024. Eversource appreciates the efforts of the AoT Bureau in helping to maintain the anticipated construction schedule.

Concurrently with this submission to NHDES, The City of Concord, Town of Pembroke, Town of Bow, and Upper Merrimack River Local Advisory Committee have also been sent a copy of this AoT application. Proof of delivery will be forwarded to NHDES when received.

Please contact me if you need additional information or have any questions or concerns regarding the enclosed application materials.

Regards,

Stantec Consulting Services Inc.

Tom Tetreau
Associate / Environmental Scientist
