Hi Lindsey,

The Alteration of Terrain Permitting Plan Set (title sheet and 7 map sheets), dated 3/23/2023, submitted with the AoT permit application does correspond with the plan set submitted to NHFG via email dated 4/13/23. In particular, the plan set submitted to NHFG includes a structure (#37) not included in the AoT plan set. Please clarify and, as necessary, provide a revised plan set, and revise the pertinent sections of the project narrative (*Project Background and Purpose, Site Information*) to accurately describe the project scope.

Regards,  
Ridge

Hi Ridge,

Hope all is well. I wanted to reach out to just check in on the status of the D121 Transmission Line AoT Permit that was accepted on March 30.

I know we are still within the 50-day review period, but just wanted to reach out to see if you needed any additional information from us.

We have received NHFG correspondence feedback and incorporated their feedback into our updated permit plan notesheets (attached).

Thanks!  
Lindsey
