Mr. Michael York  
State Librarian  
20 Park Street  
Concord, New Hampshire 03301-6314

Dear Mr. York

Pursuant to RSA 215-A:3 IX and RSA 215-C:2 X, enclosed is the annual report that the Executive Director of the Fish and Game Department is required to file with the State Library. This report encompasses the time period from July 1, 2019 to June 30, 2020.

Registration totals for FY 2020 are as follows:

	<u>RESIDENT</u>	<u>NON-RESIDENT</u>	<u>TOTALS</u>
Snowmobile	27,334	15,813	43,147
ATV/UTV	19,349	8,951	28,300
Temporary OHRV	NA	3,386	3,386
Trail Bike	2,279	1,207	3,486
Transfers	994		
Dealer/Rental	811		
Antique/Event	862

## Enforcement

The New Hampshire Fish and Game Department is the primary OHRV/Snowmobile enforcement agency. Conservation Officers conducted enforcement patrols totaling 13,365.75 regular hours and 2,346.25 overtime hours through a twelve month period and checked approximately 62,153 vehicles for compliance. During this period, Conservation Officers issued 1,326 summonses and 992 warnings for violations of Chapters 215-A and 215-C.

During the winter, Conservation Officers continued snowmobile enforcement efforts to control excessive speed, unlawful operation, and modified exhausts while working cooperatively with landowners and snowmobile clubs to keep the trails safe. The statewide snowmobile trail system exceeds 7,000 miles. Loud exhausts and operating without landowner permission (off trail) are the primary complaints leading to the closing of snowmobile trails on private property. Modified exhausts, excessive speed and irresponsible off-trail riding are areas of continued concern. Conservation Officers focus patrol efforts on these problems through speed enforcement details, trail patrols and community policing initiatives.

Conservation Officers conduct wheeled vehicle or Off Highway Recreational Vehicle (All-Terrain Vehicle (ATV), Utility Terrain Vehicle (UTV), and trail bike) enforcement patrols from spring through fall to improve overall trail safety and address unlawful operation. Officers work with riders, landowners, clubs and local law enforcement to control illegal operation, illegal/loud exhaust, and help ensure safety on a growing network of maintained and approved trails on state and private land. Currently, NH has over 1,000 miles of OHRV trails on several interconnected systems, the largest trail network in the Northeast.

In addition, many of these OHRV trail systems provide extensive use of local and state public roadways to access services and provide further interconnectivity. These significant increases in ATV/UTV riding opportunities have significantly increased our enforcement, administrative and coordination responsibilities particularly in Coos County. In addition to existing trail systems, many towns statewide are opening their roadways to OHRVs.

OHRV registrations continue to remain high. However, budget restrictions, past and present, have prevented filling vacant Conservation Officer patrol areas and open/unfunded Conservation Officer positions needed to keep up with the increase in activity. This has negatively impacted our ability to meet constituent demands for adequate enforcement patrol coverage and constituent complaints. There is substantial justification to fill several vacant patrol positions. Numerous attempts to do so have been unsuccessful. Currently there are only thirty-two (32) Conservation Officers, six (6) Sergeants, and six (6) Lieutenants statewide including four (4) assigned to administrative duties at Headquarters. Currently we have no trainees.

Page 3

Due to normal day-on/day-off rotations, on any given day there are only fifteen (15) to twenty (20) Conservation Officers covering the entire state. This coverage is not limited to OHRV/Snowmobile enforcement but also includes their primary duties of wildlife law enforcement as well as search and rescue obligations. This low number of Conservation Officers (34) is equal to the number of Conservation Officers New Hampshire had in 1950. This low number, despite the significant increase in duties, responsibilities, and population underscores the need to revise our funding model and establish a new source of stable, dedicated funding for the Department.

## OHRV/Snowmobile Safety Education

The Law Enforcement Division, through the Safety Education Program, actively promotes the safe and responsible operation of all recreational vehicles, facilitating this objective through enhanced enforcement patrols and safety education classes. The objective is to modify the behavior of the irresponsible rider and to promote safe trail systems. This is accomplished with the cooperation of the Bureau of Trails (DNCR), OHRV and snowmobile clubs, and statewide associations.

Fish and Game continues to coordinate over 150 volunteer OHRV and snowmobile instructors who, along with part-time OHRV Regional Coordinators, conduct safety classes across the state with the assistance of local clubs, police/fire agencies and volunteers. Safety Education Certification is required of any rider who operates off of their land and is over the age of twelve (12) who does not possess a valid driver's license. Program staff continues to work with interested individuals, state associations and national organizations to develop new safety initiatives. The Department certified 1,797 students in FY 2020. The OHRV Online Safety Education certification program is growing in popularity. This alternative method of certification supplements the long standing traditional classroom course taught by volunteer instructors and part-time regional coordinators. The online course was implemented as a result of constituent demand for readily available methods of certification for non-residents traveling to NH to ride as well as resident's desire for modernized, flexible certification options. In compliance with RSA 215-A:19, IX and RSA 215-C:34, VIII, the Law Enforcement Division continues to administer the statutorily required Responsible Riders Safety Education Class, as needed, to those who are convicted of operating while intoxicated, disobeying a police officer, skimming open water or operating to endanger any person or property.

The Law Enforcement Division's OHRV/Snowmobile Program funds a full time Conservation Officer Program Coordinator, one full-time program assistant, and part-time regional coordinators to perform OHRV/snowmobile related duties. In addition, the Division is attempting to implement, at the suggestion of the Joint Legislative Fiscal

Committee, two full time Conservation Officers dedicated to OHRV/Snowmobile enforcement.

## Registrations and Revenue

There were 80,986 OHRV/Snowmobiles registered in the FY 2020 season, compared to 82,481 OHRV/Snowmobiles in FY 2019. This is a 1,495 decrease in registrations in FY2020. With the decrease in registered machines, it did not decrease the calls to service/complaints; responding to landowner complaints, accident investigations and reports continue to take up a large component of a Conservation Officer's time. Pursuant to RSA 215-A: 32-a and RSA 215-C:53, the New Hampshire Fish and Game Department is required to furnish OHRV and Snowmobile death and injury statistics to the Registrar of Vital Records. Copies of these statistical reports are attached.

In accordance with RSA 215-A: 23 and RSA 215-C: 39, the Fish and Game Department collected \$6,049,923.90 in registration fees and permits in FY 2020. A breakdown of fees collected per OHRV Category is attached. Pursuant to RSA 215-A: 23 and RSA 215-C: 39, the Fish and Game Department forwarded \$4,256,739.00 to the Department of Natural and Cultural Resources, Bureau of Trails. The Fish and Game Department retained the remaining amount of \$2,125,646.00 for OHRV/Snowmobile enforcement, OHRV Safety Education and Training, Wheeled Vehicle Enforcement Contracts, and processing of Registration materials. Funds available to the department were as follows: \$1,872,989.00 for OHRV and Snowmobile Enforcement, Education and Training, and \$252,657.00 for the administration of the OHRV and Snowmobile Registration Program.

These funds are non-lapsing and are utilized conservatively, in part to help offset minimal snow winters when snowmobile registrations and related funds can dip substantially. This scenario occurred during FY 2016 when only 22,880 snowmobile registrations were sold, representing a 53% decrease from the previous FY 2015 and 107% less than FY 2017. This carry-over funding process from one year to the next is vital to the stability and sustainability of the program.

The New Hampshire Fish and Game Department also entered into OHRV Law Enforcement Contracts with 12 local police agencies for a total of \$39,960.00. These contracts aid in providing patrol coverage and mitigating landowner complaints.

Mrs. Denise Gonyer  
Director of Vital Records Administration  
New Hampshire Department of State  
Division of Vital Records Administration  
9 Ratification Way  
Concord, New Hampshire 03301-2410

01/21/2021

Dear Director Gonyer,

Pursuant to RSA 215-A:32-a and RSA 215-C:53, I am filing the NH Fish and Game Department's annual report of deaths and injuries occurring in the state related to the operation of snowmobiles, all-terrain vehicles (ATV), utility terrain vehicles (UTV) and trail bikes during the time period from July 1, 2019 to June 30, 2020.

	<u>TOTAL REGISTRATIONS</u>	<u>DEATHS</u>	<u>INJURIES</u>
Snowmobile	41,275	2	92
ATV/UTV	28,586	1	73
Temporary OHRV	3,386		
Trail Bike	3,761	2	10
Antiques	862		

I have enclosed copies of the Accident Statistics Reports pertaining to each vehicle type. You may contact Captain Michael Eastman at 603-271-3129 should you need any additional information concerning these reports.

Sincerely,

Scott R. Mason  
Executive Director, NHF&G
