---

Bob

Prior to the purchase of Nash Stream lands. Groveton Paper company leased the dams to NH Fish and Game. This lease was from 1973-1993. Obviously the State purchased the land prior to lease ending

Attached is the original lease and the documentation with language describing how Fish and Game (continued) took over maintenance / management of the current dams.

Thanks

Mike

I looked through my files and could not find any documentation regarding F&G maintaining the dams. You thought you had some that we sent to you. Can I have a copy please.

Thanks
