To the committee:

I would like to add my name to the list of non-supporters for a hotel on Mt. Washington. I believe it would be dangerous and would only encourage more foolhardy people to hike unprepared and reckless. Washington has very dangerous weather during every season and I believe that a hotel on Mt. Washington might give people a false sense of security and lead to unnecessary injuries, possible deaths and many people needing to be rescued. I also believe that building and running a hotel would have a detrimental effect on the fragile environment of the mountain. I hope that you will turn down this request to protect the environment and those who risk their lives to rescue people. Thank you for considering my opinion.

Sincerely,
Jackie Moulton
