**Subject:** FW: NHB inventory of Lizzie's station

Hi folks,

Fyi, a huge thank you to Pete Bowman and Jess for surveying Lizzie's station, a huge thank you to Maddie for her work on the "why" aspect of this report and a huge thank you to Bill Nichols for his work (and presentation) on non native invasive plants in NH's alpine region. Also a huge high five and thank you to Pete for his patience and his ability to draw yellow hatching on photos and maps.

**Subject:** NHB inventory of Lizzie's station

Hi Earl,

Thank you for checking in regarding the native plant and natural communities and systems surveys of the Lizzie's station project area and staging areas of the proposed Lizzie's Station project on Mt. Washington. Attached please find our report and recommendations. We appreciate working with the Cog Railway, please contact me if there are questions or if we can provide assistance with this project.

Thank you,  
Sabrina
