Hi Stephen,

I appreciate the feedback and your concerns. I will relay your thoughts regarding closing the trails earlier for hunting to the Bureau of Trails. We are having a Nash Stream Forest Citizens Advisory Committee meeting at the end of November at the Lancaster office. The public is welcome to attend and always has an opportunity to comment or raise concerns at the end of the meeting. The exact date and time will be posted on our website when it is finalized, or you can contact Maggie directly for the information.

Good to hear from you.

-Will

Bill

Just had a great conversation with Maggie. I believe she and Todd do a great job for you. I was just venting to her about ATV traffic on the Bordeau trail this weekend. That's where my land borders the Nash Stream Forest. She has the trail closed for a logging project but that doesn't stop the traffic. The folks from down below don't have to follow the rules I guess. They just drive around your signs. I took my muzzle loader for a walk this weekend and had to listen to those things roaring up and down the trail. I believe they go down the Bordeau trail and then back up the west side. I wish there was a way to close your trails on October 1st, when bird hunting starts. Actually I wished you closed them period. Anyway, got that off my chest. You have a great day and sorry for my ranting.

Steve
