Dear Mr Mauck,

Apologies that I could not find the engineer reviewing this application.

The UMLAC has the following question on the amendment provided on 9.16.22.

re: waiver request section D: proposed alternatives references "...additional upland on the P145 retransmission line where plants are no longer present based on recent field surveys and protective measures are therefore not needed."

We did not see a report or other documentation on rare plant species. Would you please provide a reference or link to the report? Thank you.

Sincerely,

Michele L. Tremblay, Chair
Upper Merrimack River Local Advisory Committee

Hi Michele,
Eversource is filing an amendment to their P145 AoT application to include the replacement of some adjacent structures, in the same ROW as the P145 line.
I've sent a hard copy to you and I think it will arrive today, but wanted you to have a PDF version also for easy distribution.
Please let me know if you have any questions or need anything else.
Thanks,
Tom

Dear Tom,

Thank you for your responses. The UMLAC will review your responses at its Monday meeting next week.

I will be in contact should we have any further questions or concerns.

Sincerely,

Dear Mr. Mauck,

The Upper Merrimack River Local Advisory Committee's comments letter on the referenced permit application is attached.

The UMRAC looks forward to hearing from you with responses to the questions, concerns, and recommendations. Thank you.

Sincerely,

Michele L. Tremblay, Chair
Upper Merrimack River Local Advisory Committee
