

Transmission Planning Process Guide - Update

Michael Drzewianowski

SENIOR ENGINEER, ENGINEERING AND STUDY COORDINATION

Updates to Transmission Planning Process Guide

- Section 5 - Regional System Plan (RSP)
 - Address RSP timing
 - Change from annual to biannual, which is within the three year time requirement of the Tariff
 - Clarify RSP Project List categories
 - Changes made to include Competitive Solutions Process and Public Policy
 - Addition of “Asset Condition Project List” Section to describe the Asset Condition Project List and categories
- Section 6 - Planning Advisory Committee (PAC)
 - Changes made to conform with Tariff
 - Update “Role of the PAC” to include Competitive Solutions Process and Public Policy
 - Minor change to “Membership” language
- Adding clarity
 - Selection criteria for competitive solicitations
 - Addition of reference to Section 2.8.3 in Section 2.9.8 for clarification on selection criteria
 - Address incorrect reference numbers
 - Section 2.9.8 and 3.1.12

Next Steps

- Proposed revisions to the Transmission Planning Process Guide are posted as part of the PAC materials for this meeting
- Stakeholders can provide comments by October 5, 2016 to PACMatters@iso-ne.com
- Comments will be responded to and a final update is targeted for mid-October 2016
