**Subject:** FW: Allowing ATVs on the Rail Trail for Maintenance/Surveillance Work

Trail maintenance. There is no agreement with us on this. This may be a subject for discussion with Chris Gamache. Like the Northern there appears to be some maintenance work under the auspices of Bureau of Trails.

Hello All,

Bruce Tranter, Sno-Moles Snowmobile Club and is included in this email, is asking to ride the rail trail with his ATV to take notes, pictures, and study the feasibility of snowmobile travel. Is there a way to allow this? For example, identify himself as a trail maintenance person, do not exceed a specified speed, etc. Does the state have an identifying logo we could use on t-shirts, signage, etc. that identifies the person as a trail maintenance person. Personally I am on the trail with my tractor doing mowing/maintenance work. It would be helpful to put an identifier on myself as well as my tractor.

Mike
