Dear Chairman Sykes and House Transportation Committee members,

Here are some documents related to HB 498 and HB 592.

Commissioner Sheehan states that roads will be used by OHRVs "rare cases" and the DOT is working on behalf of "all the citizens of NH." After 6 years of living with "Ride the Wilds," the residents living along the miles of roads opened as OHRV trails in Coos are feeling like 2nd class citizens.

The 10:00 curfew in Gorham was granted for "special" events. The Coos County Sheriff's office is currently trying to change the curfew season-wide to 9:00pm - extending the hours of disturbance for trail abutters, despite their cries for relief.

The 2016 North Country Council trail counts are out of date, but give an idea of the number of OHRVs traveling down roads w/ tractor trailers and logging trucks etc. July and August traffic generally surpasses September counts, when school is back in session.

Mr. Rose,

Writing to you again regarding the connector trail Mr. Gamache opened up behind our home. consideration to us and others like us who are paying the price for trail access into Gorham. I Gorham has applied for extending hours of operation to 10:00 pm. Since the selectmen of Gorham has been bringing noise pollution that has been brought upon residents like us. I am I
