Hi Folks,

Does it make sense to open this quarter mile section of NH Rt#145 to OHRV traffic? Are we thinking of visitors safety and protection when we introduce them to this sort of environment? The speed limit along this road is 45 mph. With two passing logging truck or other large vehicles in this trap will certainly make one think twice about how safe this really is.

I would appreciate your feedback on how this is going to be presented at the May 22nd meeting in Colebrook. Thank you.

Carpe Diem

Richard Harris (Dick)
