

# COMPLETION OF CONSTRUCTION NOTIFICATION

Water Division/Alteration of Terrain Bureau

**RSA/Rule:** RSA 485-A, Env-Wq 1503.21

In accordance with Env-Wq 1503.21(a), I am submitting written notification of completion of construction for the following project:

Permit #: AoT- 2119

Project Name: T198 Transmission Line Structure Replacement and OPGW Project

Town: Swanzey, Troy and Marlborough

Completion Date of Construction: 2/3/2023

Check applicable box:

- The project was completed in accordance with the approved plans.
- Deviations from the approved plans were made. (Submit as-built drawings, stamped by a qualified engineer, if the approved plans were stamped by a qualified engineer, and accompanied with a letter stamped by a qualified engineer stating that deviations did not require an amended permit and describing the deviations.)
- Underground detention systems, infiltration systems or filtering systems were installed. Submit a letter from a qualified engineer stating that the individual observed the system(s) prior to backfilling, and that in his or her professional opinion, the system(s) conforms to the approved plans and specifications. Include representative photographs of the system after completion but prior to being backfilled.
