Thanks for the guidance, Alani. Yes, we'll withdraw both applications.

Good morning Kurt,

Thank you for updating DES on the situation. I assume this means you will want to withdraw the SPN in Lincoln as well? DES recommends withdrawing the applications and submitting them at a later date, closer to when the construction can begin in 2026.

Thanks again,
Alani

Hi Alani and Mary Ann,

Eversource had an internal meeting today and we've unfortunately discovered that due to road postings in the April timeframe, we won't be able to perform the proposed drilling work at this time. We won't be able to mobilize our equipment to the laydown area in Easton. We are now targeting the winter window of Q-1 of 2026.

Under these circumstances we'd like your feedback on how best to address the SPN:

- Withdraw and resubmit later this year
- Leave in a status of Incomplete
- Assuming the current application is complete – issue the permit now giving us until March 2026 to complete the work with a winter work window.

Please let me know your thoughts.

Thank you.

Kurt Nelson
