

Comment on SEC 2024-02

Why did Eversource submit a Start of Construction [Notification](#) form to DES for the X-178 (2) without specifying if this Notification was for Phase 1 or Phase 2?

Why did DES approve this Notification with the Phase unspecified and when Eversource had not submitted applications to DES for Alteration of Terrain or Dredge and Fill Wetlands permits for the X-178 (2) Phase 2?

What do the plus signs in black squares mean?

Why didn't Eversource send this Notification letter to the X-178 (2) towns and easement-encumbered landowners?
