**NHDES File Number: 2024-01125**  
**Subject Property: Psnh X178-1 Row, Thornton, Tax Map #207, Lot #15**

Dear Applicant:

On April 26, 2024, the New Hampshire Department of Environmental Services (NHDES) Shoreland Program received the above-referenced Shoreland Permit by Notification (SPBN). In accordance with RSA 483-B:5-b, I and Env-Wq 1406.19, on April 30, 2024, the NHDES accepted the SPBN. The enclosed SPBN form is your permit. Any individual conducting work under this permit is advised to post a copy of the enclosed SPBN form on site in a prominent location, visible to inspecting personnel, at all times during construction.

Only the impacts shown on the submitted plans and accepted by NHDES as part of the SPBN are authorized under RSA 483-B. Any and all impacts not shown on the accepted plans or permitted through another SPBN or Shoreland Permit Application will render this SPBN invalid and will be in violation of RSA 483-B.

Please note that this SPBN cannot be amended. Prior to any change to the size or location of the proposed impacts, please contact me at [Matthew.P.Faidell@des.nh.gov](mailto:Matthew.P.Faidell@des.nh.gov) or 603-271-0872 to determine the appropriate method to obtain any additional approval under RSA 483-B:5-b as may be required. Please do not hesitate to contact me as noted above if you have additional questions.

Sincerely,

Matthew Faidell  
Shoreland/Shoreline Specialist, Shoreland Program  
Wetlands Bureau, Land Resources Management  
Water Division

Enclosure
