

# Improving Electric System Reliability

In its continuing efforts to improve the transmission system, Eversource, through its contractors, will be performing engineering, environmental, and drone surveying of the rights of way (power line corridors) in your area.

Over the next few weeks, you may see company representatives in your area inspecting transmission lines and structures. All contractors will carry proper identification; however, if you have any concerns or questions, please call our project hotline at 1-888-926-5334 or email [NHProjectsInfo@eversource.com](mailto:NHProjectsInfo@eversource.com). Thank you in advance for your patience and cooperation as we work to better serve you.
